**Subject:** scanned notifications 1

Alan,

I'm going to try to send you these notifications in a bunch more emails. I'm not sure how many emails I'll have to spread them across, so be patient.

# NOTIFICATION OF OPERATION/APPLICATION FOR PERMIT

OREGON DEPARTMENT OF FORESTRY

OREGON DEPARTMENT OF REVENUE

Filing this notification does not grant permission to remove forest products! You must have permission from the landowner and timber owner.

The landowner is responsible for reforestation. Early consultation with the Stewardship Forester is advised.

For activities or operations changing the land to a non-forest use, the applicant is advised to contact the appropriate local government regarding land use regulations which may apply to the future use or development of this site.

On-site inspections may be conducted by Oregon Department of Forestry (ODF) employees to ensure compliance with all the laws and rules governing fire protection and forest practices on private land.

File a new Notification of Operation/Application for Permit form at an ODF office if **any** of the following conditions apply:

- Your operation area is new.
- You are adding a new activity to the operation.
- You are changing or increasing the area involved in an existing operation.
- It is after February 28, and you are continuing an operation that has been idle since the end of the previous calendar year and you have not informed ODF you intend to continue the operation before now.

ODF must also be informed in writing of any other changes in the information on an existing notification, but completion of a new form may not be required.

Provide PHOTOCOPIES of the completed original notification form and map to the local offices of the Water Resources Department and the Oregon Department of Fish and Wildlife ONLY IF you plan to use on-site water to mix pesticides or to control slash burns.

Multiple harvest units may be listed on one notification. BUT, if HARVEST units are separated by a mile or more (in a straight line) or are in different counties, file separate notifications for each unit. An operation can be any combination of forest activities. See OAR 629-605-0140 for a complete list. OAR 629-600-0100 defines "operation," "commercial," and "unit."

The instructions are printed in italics. Please print or type the information on the form.

**Do not fill in green boxes.**

File notice with the State Forester at least 15 days prior to the date you would like to start operating. A notification is not considered accepted until it is properly filled out, has a map attached, and is received by the appropriate ODF office. Mail, fax, or deliver the form to one of the Oregon Department of Forestry offices that accepts notifications.

**LANDOWNER****RC/EG/S Codes**

Information about the forest landowner in Recipient Class (RC), Ethnic Group (EG), and Land Ownership Size (S) is needed for annual reports. We ask you to voluntarily enter this information.

**RC: (Recipient Class)** Check the box that best identifies the landowner:

- ☐ 1. Local Government  
☒ 2. State Government  
☐ 3. Federal Agency  
☐ 4. Individual/Non-industrial private  
☐ 5. Partnership/Corporation/Industrial  
☐ 6. Other private (church, nonprofit organization, etc.)

**E.G. (Ethnic Group)** Check the box that best identifies the landowner (Codes 2-7 apply to recipient class 4 [individual] only):

- ☒ 1. Does not apply  
☐ 2. White  
☐ 3. Black  
☐ 4. Hispanic  
☐ 5. American Indian/Alaskan Native  
☐ 6. Asian/Pacific Islander  
☐ 7. All other

**S: (Land Ownership Size)** Check the box that best identifies the total forest ownership of the landowner:

- ☒ 1. Does not apply  
☐ 2. 0 - 9 acres  
☐ 3. 10 - 99 acres  
☐ 4. 100 - 499 acres  
☐ 5. 500 - 999 acres  
☐ 6. 1,000 - 4,999 acres  
☐ 7. 5,000 + acres

(Landowner is responsible for reforestation)

Name: Ole Buch

Business Name: Oregon Dept of Forestry

Enter starting and ending dates.

ESTIMATED STARTING DATE: July 23, 2012

(Must be 15 days after the appropriate office receives notification)

ESTIMATED ENDING DATE: October 31, 2012

(Continuation into next calendar year requires written notice to the local ODF office)

## SITE CODES

Check the appropriate Waters, Topography, and Soil site codes.  
One of each code must be checked on each unit.

## WATERS

- ☒ W100 Within 100' of any lake or stream, (a channel that carries  
flowing surface water during some time of the year)
- ☐ W300 Within 300' of any estuary or any wetland greater than 8 acres
- ☐ WNA Waters not present in operation area

## TOPOGRAPHY (over the steepest third of operation)

- ☒ T1 Slope of 0% to 35%
- ☒ T2 Slope of 36% to 65%
- ☒ T3 Slope greater than 65%

## SOIL

- ☒ S1 No evidence of mass soil movement (slips, landslides, etc.)
- ☐ S2 Evidence of old slides, small failures
- ☐ S3 Recent or active movement; wet areas

APPLICANT REMARKS: Please describe the intent of the operation,  
what equipment will be used and any other information that may be  
relevant to the Stewardship Forester.

## Written Plan for Operations within 100' of Type F

**Landowner:** Oregon Dept of Forestry, Western Lane District

**Operator:** Nick's Timber Services

**Location:** T 17S, R 8 W Sec. 11, 14, 19, 30. T 18S, R 7W, Sec. 2. T 17S, R 7W, Sec. 18.

**Protected Recourses:** Type F streams (Knapp Ck and tributaries, Tributaries to Nelson Ck, Salt Creek)

**Activity:** Herbicide Application

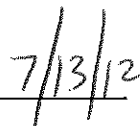

**Method:** Ground based (Backpack Spray, Hack and Squirt Spray).

**Purpose:** To control vegetation competing with seedlings to be planted.

**Resource Protection Standards:** Type F streams will be afforded a minimum 60' no spray buffer. There are no Type D streams within the vicinity of the proposed operation.

**Herbicide Application Summary:** The intent of the application is to control vegetation competing with seedlings that are planned for planting during the first part of 2012.

# NOTIFICATION OF OPERATION/APPLICATION FOR PERMIT

OREGON DEPARTMENT OF FORESTRY

OREGON DEPARTMENT OF REVENUE

Filing this notification does not grant permission to remove forest products! You must have permission from the landowner and timber owner.

The landowner is responsible for reforestation. Early consultation with the Stewardship Forester is advised.

For activities or operations changing the land to a non-forest use, the applicant is advised to contact the appropriate local government regarding land use regulations which may apply to the future use or development of this site.

On-site inspections may be conducted by Oregon Department of Forestry (ODF) employees to ensure compliance with all the laws and rules governing fire protection and forest practices on private land.

File a new Notification of Operation/Application for Permit form at an ODF office if **any** of the following conditions apply:

- Your operation area is new.
- You are adding a new activity to the operation.
- You are changing or increasing the area involved in an existing operation.
- It is after February 28, and you are continuing an operation that has been idle since the end of the previous calendar year and you have not informed ODF you intend to continue the operation before now.

ODF must also be informed in writing of any other changes in the information on an existing notification, but completion of a new form may not be required.

Provide PHOTOCOPIES of the completed original notification form and map to the local offices of the Water Resources Department and the Oregon Department of Fish and Wildlife ONLY IF you plan to use on-site water to mix pesticides or to control slash burns.

Multiple harvest units may be listed on one notification. BUT, if HARVEST units are separated by a mile or more (in a straight line) or are in different counties, file separate notifications for each unit. An operation can be any combination of forest activities. See OAR 629-605-0140 for a complete list. OAR 629-600-0100 defines "operation," "commercial," and "unit."

The instructions are printed in italics. Please print or type the information on the form.

**Do not fill in green boxes.**

File notice with the State Forester at least 15 days prior to the date you would like to start operating. A notification is not considered accepted until it is properly filled out, has a map attached, and is received by the appropriate ODF office. Mail, fax, or deliver the form to one of the Oregon Department of Forestry offices that accepts notifications.

Enter starting and ending dates.

ESTIMATED STARTING DATE: September 4, 2012

(Must be 15 days after the appropriate office receives notification)

ESTIMATED ENDING DATE: September 25, 2012

(Continuation into next calendar year requires written notice to the local ODF office)

## SITE CODES

Check the appropriate Waters, Topography, and Soil site codes.  
One of each code must be checked on each unit.

## WATERS

- ☒ W100 Within 100' of any lake or stream, (a channel that carries  
flowing surface water during some time of the year)  
☐ W300 Within 300' of any estuary or any wetland greater than 8 acres  
☐ WNA Waters not present in operation area

## TOPOGRAPHY (over the steepest third of operation)

- ☒ T1 Slope of 0% to 35%  
☐ T2 Slope of 36% to 65%  
☐ T3 Slope greater than 65%

## SOIL

- ☒ S1 No evidence of mass soil movement (slips, landslides, etc.)  
☐ S2 Evidence of old slides, small failures  
☐ S3 Recent or active movement; wet areas

APPLICANT REMARKS: Please describe the intent of the operation,  
what equipment will be used and any other information that may be  
relevant to the Stewardship Forester.

This Notification is for an herbicide application. This  
ground-based (Roadside, ATV mounted sprayer,  
backpack) herbicide application is necessary to control  
and/or eradicate noxious weeds such as scotch broom and  
blackberry species. The treatment will focus mostly on  
areas adjacent to roads and landings.

Herbicide chemicals include **Glyphosate, Triclopyr ester,**  
**Triclopyr amine, and surfactants include Agri-Dex and**  
**Herbimax.**

All streams, including Type F, Type D and Type N, will be  
afforded a 10' or greater buffer.

## ~~Aspirin~~ Hand Spray Plan

Applicator: Roseburg Resources Company  
Unit # 1 Acres 55  
Unit Name Slack  
Targets: hardwoods, woody brush, herbaceous  
Application Rate: 5 - 10 gal/acre. Carrier: water

Chemicals to be used singly or in combination:

Imazapyr

Triclopyr Ester + Amine  
Non-ionic surfactant  
Oil surfactant

Other \_\_\_\_\_

All chemical application rules specified in the Oregon Forest Practices Act will be adhered to. A buffer strip parallel to each fish bearing or domestic stream will be left to protect water from the direct application of chemicals. Protected resources will be reviewed with the applicator prior to application. A Company Forester will be nearby to monitor weather.

**Additional Mitigating Measures:**

- ☐ Hardwoods left by logging within the Riparian Zone will not be targeted for treatment.
- ☐ The helicopter used for applying herbicides to Roseburg Resources plantations will be equipped with and may implement a unique half boom shutoff system which can limit the swath width to approximately 25 feet, and will more accurately align the swath edge under the center of the helicopter while reducing drift. This system will be implemented in areas where site and environmental conditions (terrain, weather, RMA width, etc.) dictate the need for additional protection measures.
- ☐ Application will comply with all regulations pertaining to seasonal and temporal restrictions around the identified wildlife resource site.
- ☐ No hand application will occur within 10' of the aquatic area of the identified stream.

Other \_\_\_\_\_

Attn: Paul Clements  
Oregon Dept. of Forestry  
Western Lane District  
87950 Territorial Road  
Veneta Or 97487

Paul,

I am writing this letter to help answer any questions you may have in regards to the attached notification of operations. As the notification shows I intend to perform a hack and squirt operation on the subject property.

We will not be loading or mixing chemicals within 100' of any water on this property. We will maintain a minimum 10' buffer along all creeks within our unit. Special care will be taken to keep products out of the water.

Products to be applied will be Polaris AC (Imazapyr). It will be mixed at a rate of 1:1 with water. This mixture will be applied to the 'Hacked' portions of the stems of the undesired species throughout the unit with a handheld spray bottle. Some of these undesired species include Bigleaf Maple, Red Alder, Elderberry, Golden Chinquapin, and Cherry. Products will be applied in compliance with the label, and in accordance with the Oregon Forest Practices Act.

This letter addresses all of the concerns I can identify at the moment. I appreciate your attention in this matter. If you have any questions or concerns please let me know, and I will be happy to address them.

Sincerely,

A handwritten signature in dark ink, appearing to read "Shane Sutton", is written over the printed name.

# NOTIFICATION OF OPERATION/APPLICATION FOR PERMIT

OREGON DEPARTMENT OF FORESTRY

OREGON DEPARTMENT OF REVENUE

Filing this notification does not grant permission to remove forest products! First obtain permission from the landowner and timber owner.

For activities or operations within an urban growth boundary, the applicant is advised to contact the appropriate local government regarding land use regulations which may apply to the future use or development of this site.

On-site inspections may be conducted by Oregon Department of Forestry (ODF) employees to ensure compliance with all the laws and rules governing fire protection and forest practices on private land.

File a new Notification of Operation/Application for Permit form at an ODF office if any of the following conditions apply:

- Your operation area is now.
- You are adding a new activity to the operation.
- You are changing or increasing the area involved in an existing operation.

- It is after February 28, and you are continuing an operation that has been idle since the end of the previous calendar year and you have not informed ODF you intend to continue the operation before now.

ODF must also be informed in writing of any other changes in the information on an existing notification, but completion of a new form may not be required.

Provide **PHOTOCOPIES** of the completed original notification form and map to the local offices of the Water Resources Department and the Oregon Department of Fish and Wildlife **ONLY** if you plan to use on-site water to mix pesticides or to control slash burns.

Multiple harvest units may be listed on one notification. BUT, if HARVEST units are separated by a mile or more (in a straight line) or are in different counties, file separate notifications for each unit. An operation can be any combination of forest activities. See OAR 629-605-0140 for a complete list. OAR 629-600-0100 defines "operation," "commercial," and "unit."

*The instructions are printed in italics. Please print or type the information on the form.*

**Do not fill in shaded boxes.**

*File notice with the State Forester at least 15 days prior to the date you would like to start operating. A notification is not considered accepted until it is properly filled out, has a map attached, and is received by the appropriate ODF office. Mail, fax, or deliver the form to one of the Oregon Department of Forestry offices that accepts notifications.*

COUNTY (Enter only one): **LANE**

NOTIFICATION NUMBER (Office Use)

☒ **2A** Notice to the State Forester that an operation will be conducted on lands described here (ORS 527.670), 15 day waiting period required, unless waived.

## LANDOWNER

## RCIEGIS Codes

Information about the forest landowner in Recipient Class (RC), Ethnic Group (EG), and Land Ownership Size (S) is needed for annual reports. We ask you to voluntarily enter this information.

RC: (Recipient Class) Check the box that best identifies the landowner:

- ☐ 1. Local Government  
☐ 2. State Government  
☐ 3. Federal Agency  
☐ 4. Individual/Non-industrial private  
☒ 5. Partnership/Corporation/Industrial  
☐ 6. Other private (church, nonprofit organization, etc.)

EG: (Ethnic Group) Check the box that best identifies the landowner (Codes 2-7 apply to recipient class 4 [individual] only):

- ☒ 1. Does not apply  
☐ 2. White  
☐ 3. Black  
☐ 4. Hispanic  
☐ 5. American Indian/Alaskan Native  
☐ 6. Asian/Pacific Islander  
☐ 7. All other

S: (Land Ownership Size) Check the box that best identifies the total forest ownership of the landowner:

- ☐ 1. Does not apply  
☐ 2. 0-9 acres  
☐ 3. 10-99 acres  
☐ 4. 100-499 acres  
☐ 5. 500-999 acres  
☒ 6. 1,000-4,999 acres  
☐ 7. 5,000+ acres

(Landowner is responsible for reforestation)

Name:			
Business Name:	TRAUSTION MGMT INC		
Mailing Address:	4710 Village Plaza LP #225		
City, State, & Zip Code:	Eugene OR 974101		
Area Code:	541	Phone No:	521-5897

ATTENTION: Timber harvesting may result in a tree planting requirement on the landowner. The landowner has the responsibility to reforest if the harvest results in an under stocked condition.

Landowner Codes: UDF1: UDF2: UDF3: UDF4: UDF5:

Enter the Timber Owner and Taxpayer Information

## TIMBER OWNER AND TAXPAYER

Written Plan for Ground Herbicide Application  
on Lands owned by Transition Management Inc.

Notification Number:

Unit Name:

Tree Farm Ground

Location:

Sec. 30, 31, T16S, R6W, WM

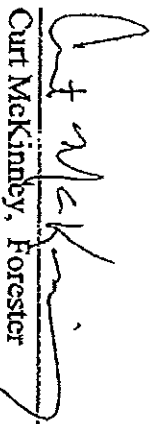

Date:

June 20, 2012

Protected resources covered by this written plan are Shon Lake Creek and Board Creek. In the project area both streams are Med F classification and have been buffered with full-width RMAs. The planned treatments are foliar herbicide application to hardwood clumps, hack and squirt treatment to hardwood clumps, and foliar application to scotch broom, blackberry, and herbaceous weeds..

Resource protection measures planned are as follows:

- 1) All mixing and batching operations shall be conducted at sites over 100 feet from any fish bearing stream.
- 2) No chemical application shall take place within 10 feet of the aquatic area of the Fish stream.
- 3) All application shall be done in accordance with product label requirements.
- 4) All trees within 20 feet of the aquatic area and all trees leaning over the channel will be retained.
- 5) Water for chemical mixing may be taken from the Small or Medium Fish streams. This activity shall be conducted in accordance with water quality protection rules of the Forest Practices Act. A separate volume pump and system used for water only shall be used to fill the batch tanks. An air gap between the water source and mixing tank shall be maintained during the filling process.

Curt McKinney, Forester

## Written Plan for Aerial Applications of Herbicides

Landowner: Lone Star, LLC  
Location: Lane County  
Date: 3/29/2012

Permit No: \_\_\_\_\_

Unit Name	Legal (T-R-S)	ODF Unit no. From Permit	Protected Resource					Comments
			F	D	Wet.	NSO	OSP	
Lone Star, LLC	16S-06W-29	None	X					Dusky Creek, & Tributaries to the Long

An aerial herbicide application will be conducted to reduce seedling growth losses from vegetation competing with our seedlings for light, moisture and /or nutrients.

To protect type F waterways, areas of open water greater than ¼ acre in size, and significant wetlands, no direct application of chemicals will be made within 60 feet of those resources. Vegetation required to be left within RMAs by the FPA stream rules will not be sprayed.

Flight patterns will be parallel to the streams and buffers.

All batch activities will be conducted 100 feet or more from protected waterways.

All chemical products will be applied in accordance with label direction and/ or forest practice rules.

This herbicide application will be done sometime between 4/16/12 – 12/31/12

# NOTIFICATION OF OPERATION/APPLICATION FOR PERMIT

OREGON DEPARTMENT OF FORESTRY

OREGON DEPARTMENT OF REVENUE

Filing this notification does not grant permission to remove forest products! First obtain permission from the landowner and timber owner.

For activities or operations within an urban growth boundary, the applicant is advised to contact the appropriate local government regarding land use regulations which may apply to the future use or development of this site.

On-site inspections may be conducted by Oregon Department of Forestry (ODF) employees to ensure compliance with all the laws and rules governing fire protection and forest practices on private land.

File a new Notification of Operation/Application for Permit form at an ODF office if any of the following conditions apply:

- Your operation area is new.
- You are adding a new activity to the operation.
- You are changing or increasing the area involved in an existing operation.
- It is after February 28, and you are continuing an operation that has been idle since the end of the previous calendar year and you have not informed ODF you intend to continue the operation before February 28.

ODF must also be informed in writing of any other changes in the information on an existing notification, but completion of a new form may not be required.

Provide PHOTOCOPIES of the completed original notification form and map to the local offices of the Water Resources Department and the Oregon Department of Fish and Wildlife ONLY IF you plan to use on-site water to mix pesticides or to control slash burns.

Multiple harvest units may be listed on one notification. BUT, if HARVEST units are separated by a mile or more (in a straight line) or are in different counties, file separate notifications for each unit. An operation can be any combination of forest activities. See OAR 629-605-0140 for a complete list. OAR 629-600-0100 defines "operation," "commercial," and "unit."

The instructions are printed in italics. Please print or type the information on the form.

**Do not fill in shaded boxes.**

File notice with the State Forester at least 15 days prior to the date you would like to start operating. A notification is not considered accepted until it is properly filled out, has a map attached, and is received by the appropriate ODF office. Mail, fax, or deliver the form to one of the Oregon Department of Forestry offices that accepts notifications.

## LANDOWNER

## RC/EG/S Codes

Information about the forest landowner in Recipient Class (RC), Ethnic Group (EG), and Land Ownership Size (S) is needed for annual reports. We ask you to voluntarily enter this information.

RC: (Recipient Class) Check the box that best identifies the landowner:

- ☐ 1. Local Government  
☐ 2. State Government  
☐ 3. Federal Agency  
☐ 4. Individual/Non-Industrial private  
☒ 5. Partnership/Corporation/Industrial  
☐ 6. Other private (church, nonprofit organization, etc.)

E.G. (Ethnic Group) Check the box that best identifies the landowner (Codes 2-7 apply to recipient class 4 [individual] only):

- ☒ 1. Does not apply  
☐ 2. White  
☐ 3. Black  
☐ 4. Hispanic  
☐ 5. American Indian/Alaskan Native  
☐ 6. Asian/Pacific Islander  
☐ 7. All other

S: (Land Ownership Size) Check the box that best identifies the total forest ownership of the landowner:

- ☐ 1. Does not apply  
☐ 2. 0 - 9 acres  
☐ 3. 10 - 99 acres  
☐ 4. 100 - 499 acres  
☐ 5. 500 - 999 acres  
☒ 6. 1,000 - 4,999 acres  
☐ 7. 5,000 + acres

(Landowner is responsible for reforestation)

Name:

Business Name: Transition Management, Inc.

Mailing Address: 4710 Village Plaza Lp. #225

City, State, &amp; Zip Code: Eugene, OR 97401

Area Code: 541 Phone No.: 521-5897

ATTENTION: Timber harvesting may result in a tree planting requirement on the landowner. The landowner has the responsibility to reforest if the harvest results in an under stocked condition.

Landowner Codes: UDF1 UDF2 UDF3 UDF4 UDF5

## Enter the Timber Owner and Taxpayer Information

## TIMBER OWNER AND TAXPAYER

Name:

Business Name: Same as Landowner

Mailing Address:

City, State, &amp; Zip Code:

Area Code:

Phone No.:

(Responsible for paying the harvest and, if applicable, severance taxes)

ATTENTION: You are required to provide a Timber Owner Employer Identification Number OR a Social Security Number by the Oregon Department of Revenue's Statute ORS 321.015. The Social Security Number will be used ONLY for the purpose of identifying you to the Dept. of Revenue for the collection of timber tax. The Social Security number will be held in confidence.

Enter the Timber Owner Employer Identification No. OR a Social Security No. in the box:

Timber Owner Codes: UDF1 UDF2 UDF3 UDF4 UDF5

# NOTIFICATION OF OPERATION/APPLICATION FOR PERMIT

OREGON DEPARTMENT OF FORESTRY

OREGON DEPARTMENT OF REVENUE

Filing this notification does not grant permission to remove forest products! First obtain permission from the landowner and timber owner.

For activities or operations within an urban growth boundary, the applicant is advised to contact the appropriate local government regarding land use regulations which may apply to the future use or development of this site.

On-site inspections may be conducted by Oregon Department of Forestry (ODF) employees to ensure compliance with all the laws and rules governing fire protection and forest practices on private land.

File a new Notification of Operation/Application for Permit form at an ODF office if **any** of the following conditions apply:

- Your operation area is new.
- You are adding a new activity to the operation.
- You are changing or increasing the area involved in an existing operation.
- It is after February 28, and you are continuing an operation that has been idle since the end of the previous calendar year and you have not informed ODF you intend to continue the operation before now.

ODF must also be informed in writing of any other changes in the information on an existing notification, but completion of a new form may not be required.

Provide PHOTOCOPIES of the completed original notification form and map to the local offices of the Water Resources Department and the Oregon Department of Fish and Wildlife ONLY IF you plan to use on-site water to mix pesticides or to control slash burns.

Multiple harvest units may be listed on one notification. BUT, if HARVEST units are separated by a mile or more (in a straight line) or are in different counties, file separate notifications for each unit. An operation can be any combination of forest activities. See OAR 629-605-0140 for a complete list. OAR 629-600-0100 defines "operation," "commercial," and "unit."

The instructions are printed in italics. Please print or type the information on the form.

**Do not fill in shaded boxes.**

File notice with the State Forester at least 15 days prior to the date you would like to start operating. A notification is not considered accepted until it is properly filled out, has a map attached, and is received by the appropriate ODF office. Mail, fax, or deliver the form to one of the Oregon Department of Forestry offices that accepts notifications.

**Camas Creek Resources, LLC  
2780 LaDarrah Street, Eugene, OR 97404**

Written Plan relating to Notification No. \_\_\_\_\_

Date: August 9, 2012

Landowner: Camas Creek Resources, LLC

Operator: Camas Creek Resources

Legal description: Section 4, T17S, R6W, WM & Sec. 33, T16S, R6W, WM

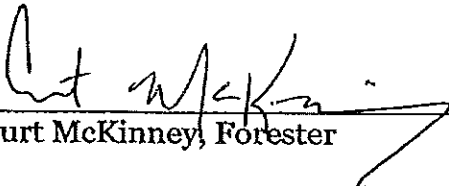

Protected resource: Bald eagle site #268

Operation description and actions proposed to minimize disturbance to the eagle:

Stand type 501 is a plantation of densely-stocked 12 year old Douglas-fir. The silvicultural need here is to reduce the stocking to 280 - 320 trees per acre. To accomplish this, a three-person crew will conduct traditional hand precommercial thinning using chainsaws. Thinning within the 1/2 mile radius and where there is line of sight vision to the nest will not occur during the critical use period unless a review by the State Forester under 629-665-0220(2)(d)(B) determines that the operation will not cause the bird(s) to flush. No thinning will occur within 1/4 mile of the nest until after August 31<sup>st</sup>.

Stand type 101 is a four-year-old plantation with scattered big-leaf maple and scotchbroom invading. The maple will require hack and squirt treatment and the scotchbroom will require backpack foliar application. This project will be completed in two days with a two person crew. The vehicle parking and staging area will be over 1/4 mile from the nest site. There is no line-of-site vision from the nest tree to the portion of type 101 where application will take place.

The crew parking and staging area for the PCT is shown on the attached map. There is no line-of-site vision from the nest tree to the parking and staging area. The anticipated hours of operation are 7AM through 4PM.

  
Curt McKinney, Forester

# NOTIFICATION OF OPERATION/APPLICATION FOR PERMIT

OREGON DEPARTMENT OF FORESTRY

OREGON DEPARTMENT OF REVENUE

Filing this notification does not grant permission to remove forest products! You must have permission from the landowner and timber owner.

The landowner is responsible for reforestation. Early consultation with the Stewardship Forester is advised.

For activities or operations changing the land to a non-forest use, the applicant is advised to contact the appropriate local government regarding land use regulations which may apply to the future use or development of this site.

On-site inspections may be conducted by Oregon Department of Forestry (ODF) employees to ensure compliance with all the laws and rules governing fire protection and forest practices on private land.

File a new Notification of Operation/Application for Permit form at an ODF office if any of the following conditions apply:

- Your operation area is new.
- You are adding a new activity to the operation.
- You are changing or increasing the area involved in an existing operation.
- It is after February 28, and you are continuing an operation that has been idle since the end of the previous calendar year and you have not informed ODF you intend to continue the operation before now.

ODF must also be informed in writing of any other changes in the information on an existing notification, but completion of a new form may not be required.

Provide PHOTOCOPIES of the completed original notification form and map to the local offices of the Water Resources Department and the Oregon Department of Fish and Wildlife ONLY IF you plan to use on-site water to mix pesticides or to control slash burns.

Multiple harvest units may be listed on one notification. BUT, if HARVEST units are separated by a mile or more (in a straight line) or are in different counties, file separate notifications for each unit. An operation can be any combination of forest activities. See OAR 629-605-0140 for a complete list. OAR 629-600-0100 defines "operation," "commercial," and "unit."

The instructions are printed in italics. Please print or type the information on the form.

**Do not fill in shaded boxes.**

File notice with the State Forester at least 15 days prior to the date you would like to start operating. A notification is not considered accepted until it is properly filled out, has a map attached, and is received by the appropriate ODF office. Mail, fax, or deliver the form to one of the Oregon Department of Forestry offices that accepts notifications.

Check appropriate box(es) & fill in acres, etc.

## ACTIVITY CODE

## METHODS USED

- ☐ 5 CHANGING LAND USE  
to a non-forest use (house  
site, agricultural, etc.)

\_\_\_\_\_ Acres

- ☐ 6 TREATMENT OF  
SLASH

\_\_\_\_\_ Acres

- ☐ 7 PRE-COMMERCIAL  
THINNING

\_\_\_\_\_ Acres

- ☐ 8 OTHER Explain on line below

WARNING: Local government  
land use approval may be  
required. A land use change  
may not exempt the landowner  
from all reforestation  
requirements.

- ☐ Manual  
☐ Burning  
☐ Mechanical

Enter starting and ending dates.

ESTIMATED STARTING DATE: 8/20/2012

(Must be 15 days after the appropriate office receives notification)

ESTIMATED ENDING DATE: 11/1/2012

(Continuation into next calendar year requires written notice to the local ODF office)

## SITE CODES

Check the appropriate Waters, Topography, and Soil site codes.  
One of each code must be checked on each unit.

## WATERS

- ☒ W100 Within 100' of any lake or stream, (a channel that carries  
flowing surface water during some time of the year)
- ☐ W300 Within 300' of any estuary or any wetland greater than 8 acres
- ☐ WNA Waters not present in operation area

## TOPOGRAPHY (over the steepest third of operation)

- ☐ T1 Slope of 0% to 35%
- ☐ T2 Slope of 36% to 65%
- ☒ T3 Slope greater than 65%

## SOIL

- ☒ S1 No evidence of mass soil movement (slips, landslides, etc.)
- ☐ S2 Evidence of old slides, small failures
- ☐ S3 Recent or active movement; wet areas

APPLICANT REMARKS: Please describe the intent of the operation,  
what equipment will be used and any other information that may be  
relevant to the Stewardship Forester.

Accord Concentrate -> glyphosate

Arsenal AC -> 7mzngrpr

LT-700 -> Additive

Blue dye

Accord XRT II -> glyphosate

MSO -> Additive

Escort XP -> met-sulfuron methyl

(Continued on Next Page)

## Written Plan for Operations within 100' of Type F

Landowner: Oregon Department of Forestry, Western Lane District

Operator: Nick's Timber Service

Location: T 17 S, R 7W, Sec. 18

Protected Resources: Type F streams (Knapp Creek and tributaries, Tributaries to Nelson Creek)

Activity: Herbicide Application

Method: Ground based (Backpack spray and Hack and Squirt Applications)

Purpose: To control the vegetation around newly planted seedlings and seedlings that will be planted in these areas in the winter of 2013.

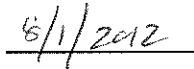

Resource Protection Standards: Type F streams will be afforded a minimum 60' no spray buffer. There are no Type D streams within the vicinity of the proposed operation.

Herbicide Application Summary: The intent of this herbicide application is to control vegetation that is already out competing planted seedlings that were planted in recent years. In addition, the goal is to control vegetation for seedlings that we plan on planting in some of these same areas.

**WRITTEN PLAN OF OPERATION FOR GROUND SPRAYING**

- LAND OWNER: -Giustina Land & Timber Co.
- OPERATOR: Northwest Reforestation Services, LLC.
- LEGAL DESCRIPTION: 19S-4W-20
- UNIT NAME: Lanzarotta
- PROTECTED RESOURCE: Coyote Cr. Trib.

PROJECT DESCRIPTION: A ground herbicide application will be conducted to suppress and/or eliminate vegetation that will hinder the establishment of conifer regeneration.

PROTECTION MEASURES: Lanzarotta Creek will be buffered by leaving a minimum of 10 feet of unsprayed vegetation. The spray crew will be briefed on the treatment of this area through a combination of maps, aerial photos and discussion with the forester prior to the herbicide application.

WRITTEN PLAN

Applicator : Roseburg Resources Company  
Unit # 3 Acres 13  
Unit Name Gald Cr. Hardwood  
Targets: hardwoods, woody brush, herbaceous  
Application Rate : 5 - 10 gal/acre. Carrier water

Chemicals to be used singly or in combination:

- Glyphosate
- Sulfometuron methyl
- Metasulfuron methyl
- Imazapyr
- Hexazinone
- Clopyralid
- Atrazine
- Triclopyr Ester + Amine
- Non-ionic surfactant
- Oil surfactant

All chemical application rules specified in the Oregon Forest Practices Act will be adhered to. A buffer strip parallel to each fish bearing or domestic stream will be left to protect water from the direct application of chemicals. Protected resources will be reviewed with the applicator prior to application. A Company Forester will be nearby to monitor weather. Additional Mitigating Measures:  
☒ Hardwoods left by logging within the Riparian Zone will not be targeted for treatment.

☐ The helicopter used for applying herbicides to Roseburg Resources plantations will be equipped with and may implement a unique half boom snuffoff system which can limit the swath width to approximately 25 feet, and will more accurately align the swath edge under the center of the helicopter while reducing drift. This system will be implemented in areas where site and environmental conditions (terrain, weather, RMA width, etc.) dictate the need for additional protection measures.

☐ Application will comply with all regulations pertaining to seasonal and temporal restrictions around the identified wildlife resource site.

☒ No hand application will occur within 10' of the aquatic area of the identified stream.
